**Subject:** Teacher's original requests

Dear Maria:

I thought this would be of interest to you. This was the original list of demands by the teachers.

Thank you,  
Jennifer deNicola

Here is a list we respectfully request answers on as soon as possible:

We support and demand the teachers requests are fully honored -

Teacher requests in letter

In particular, we ALL request that EACH of our classrooms and the theater be tested for:

1. water quality
2. air quality/vents
3. level of radioactivity
4. level of radioactive iodine
5. EMF emission
6. soil testing OUTSIDE of our buildings
7. soil testing UNDER our buildings
8. rat urine and feces remains
9. mold and other carpet contaminants
10. asbestos
11. any other testing that may help determine the cause of our health problems

In addition, we would all like to see:

1. the soil report from the middle school quad that was completed approximately three years ago.
2. the most recent report that was completed on September 27, 2013.
3. all future reports and have them explained to us.
4. a timeline of approximate dates for when testing will be done and reports generated
